"HE NEVER LOSES AT GOLF"

But
OH, NOW HE LOSES WHEN HE FINANCES A CAR

He needs to find out about my "Bank Plan." It could save him \$100 or more on the total cost of his car. That's because my plan combines low-cost insurance with low bank rates financing and it's easy to use, too—you just select the car and I do the rest. Call me before you buy that new car!

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

I'll bet you find dust gathers fast around the house these summer days. And it would at the phone office, too, if we didn't get after it right away. Did you know dust's an enemy of your phone service? You'd never guess how much real trouble it could cause if it got in our switching equipment. One way we keep your calls going through is to vacuum the equipment (above). Just like you clean your living room rug! We've got a special kind of dust cloth, too. It's treated chemically... so it'll catch dust better. Can't be too careful about these things.

You can't help noticing "straddle trucks" like this when you see them on the road. They're pretty unusual looking. And take it from me, they're plenty useful, too. When we put in new cables to carry your calls, a truck like this really speeds things up. First it picks up a cable reel in a jiffy. Then carries it fast to the place it's needed. And notice how you can park it right above the manhole where the cable goes.

The 3 C's of Safe Driving

With vacation trips and extra summer driving coming up, it's a good time to remind ourselves of the 3 C's of safe driving. These are the principles on which the telephone company's defensive driving program is based. They are:

CONCENTRATION — The safe operation of a car takes place in the minds of individual drivers, concentrating on the job of driving a vehicle safely, always being alert to everyone and everything on the road.

CONTROL — A properly maintained vehicle in good mechanical condition and a driver in good physical and emotional health are the requirements for proper control in driving smoothly and safely.

COURTESY — By applying the Golden Rule to driving, we can all share the streets and highways more pleasantly and safely.
